ERKUT ORTEKIN

Marine Chief Engineer / Founder partner

Erkut was graduated from Istanbul Technical University Maritime Faculty on 2001. After long sea going services, he had worked as Machinery Supervisor for new building of GEDEN Lines at China. Completion of the new building projects at China, he started to work as Technical Superintendent at the same company and successfully carried out his job from 2008 to May 2015 at GEDEN. He is now using his skills and know-hows for the Company.

BUĞRA KAZMACI

Marine Chief Engineer / Partner

Bugra was graduated from ITU Maritime Faculty on 2001. After sea going services, he had worked as Technical Superintendent as well as DPA in the various Turkish Maritime Companies. He had also worked as Marine Surveyor for an Independent Survey Company for couple of years. Just before joining **VEBMAR**, he worked as Technical Superintendent for GEDEN Lines. He has joined the Company on November 2015.
